## WORKING TOGETHER TO ACHIEVE COMMUNITY HEALTH GOALS

We know that there are many active groups in Sarasota County which work on similar issues and have similar goals. When groups collaborate, that work has the potential to become more impactful, more innovative, and more responsive to the needs of the community.

## PRIORITY ISSUES:

INCREASE ACCESS TO HEALTHCARE  
ENCOURAGE ACTIVE, HEALTHY LIFESTYLES  
IMPROVE CHRONIC DISEASE MANAGEMENT

## INSPIRING ACTION TO ADDRESS COMMUNITY HEALTH PRIORITIES

At the Interactive, participants will create a web of innovative ideas and existing resources. This will be a starting point to help us understand how to best connect like-minded groups and encourage collaborative efforts to create a healthier Sarasota County. Paired with new tools intended to help organize collaborations, new partnerships are expected to emerge along with increased action to address community health priorities
